## Optional Features

- Back-up control / Conditioning
- Stainless Steel and Special Surfacing
- Ethernet / Remote Monitoring / Alarming
- Humidification and Desiccant Dehumidification, with UV Disinfection
- Multi-Point Digital Recording
- Water-Cooled or Air-Cooled Condensers
- Available Service Agreements
- Can Accommodate Rapid Cycling
- Evenly-Distributed Weight
- High-Density Shelving Systems
- Touch Screen Control Interface

## The Darwin Advantage

All installed instrumentation is calibrated to NIST traceable standards and provided with a calibration form. In-house, factory calibrations are performed using state-of-the-art equipment with great accuracies. These reports are three-point verifications, traceable calibration documents.
